## COMMENTS ON SELECTION PROCESS :

### ROUND 1 :

The Session was for 3 hours and it is a national level entrance exam, the selection process involves higher cut-off than on-campus recruitment.

Have you cleared the round: YES

Details about Questions on 1<sup>st</sup> round:

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH
Quantitative Aptitude	Numerical, Verbal, Reasoning abilities are a major factor for boosting the score in the test.	
Code Debugging and correction	There were 7 questions, which was a time consuming process to write the particular code in between the lines. Executing 5 or more programs is more than sufficient in this domain.	
Technical Tasking	Finding the outputs requires depth knowledge in pointer frameworks, storage classes, and particularly understanding pseudocode.	

ROUND 2: The final round included both technical testing and hr round. This session concluded in 30 mins. Since this comes under non-core category, people won't expect core questions, but the scenario was different here especially., basics of core domain were also tested. The expectations of interviewee differ. It's better to have in-depth knowledge of basics of c, c++, data structures.

. \*PLAN YOUR RESUME\* for each of the company accordingly.

Have you cleared the round : YES
